## PROFILE

UI/UX Designer and Multimedia Content Creator with 3 years of experience producing instructional videos and visual learning materials. Skilled in managing the full content lifecycle, collaborating with subject matter experts, and translating complex technical data into learner-friendly interfaces. Leverages Agile Scrum and SDLC methodologies to execute technical content projects, ensuring continuous improvement and structured delivery aligned with instructional design principles.

## EDUCATION

### Systems Plus Computer College (SPCC) Kalookan Inc.

2022 – 2026

*Bachelor of Science in Information Technology (BSIT)*

- **Honors & Awards:** Magna Cum Laude, Exemplary Leadership (3 Years of Service), Subject Excellence - Technopreneurship, Infomercial Champion - SPCC, Most Notable Presentation - Arduino Expo, Mentor Leader Award.

## TECHNICAL SKILLS

- **Content & Systems Development:** Agile Scrum Methodology, System Development Life Cycle (SDLC), Instructional Video Production, Job Aids & Facilitator Guides, Information Architecture, Technical System Structures (ERD, DFD, Flowcharts).
- **UI/UX & Visual Design:** Interface Design, Learner-Friendly Interfaces, Visual Hierarchy, Branding Standards, Design Templates.
- **Multimedia Production:** Video Editing, Motion Graphics, Scripting, Storyboarding, Version Control, Content Libraries.
- **Technical Proficiency & Tools:** Canva, Figma, Adobe Illustrator, Adobe Photoshop, Adobe After Effects, CapCut, Blender, Microsoft Word, PowerPoint, Jira, Notion, AI Productivity Tools (ChatGPT, Gemini, Claude).

## EXPERIENCE

### Freelance UI/UX Designer & Content Developer

2024 – Present

*Independent Self-Employed*

- Designed and produced client-facing digital products, including structured documentation, job aids, and user-facing guides for real-world performance use cases.
- Collaborated cross-functionally with subject matter experts to clarify technical details and translate requirements into clean, formatted, and learner-friendly interface designs.
- Developed clear information architectures and visual learning flows for technical platforms that simplified complex data for end-users.
- Managed iterative project lifecycles and continuous product enhancements utilizing Agile Scrum methodologies, while maintaining a structured delivery approach for final technical documentation.
- Continuously enhanced structured design templates and branding standards across multiple projects, ensuring formatting consistency.

### Multimedia Officer & Head Creative Editor

August 2022 – 2025

*SPCC CIT Council, Kalookan City, Philippines*

- Developed and produced instructor-led materials, instructional videos, and visual presentations for CIT department events.
- Led end-to-end content creation workflows—from scripting and storyboarding to editing, formatting, and final delivery—ensuring consistency across all materials.
- Coordinated with instructors, officers, and subject matter experts to ensure content accuracy, safety revisions, and alignment with program objectives.
- Maintained course materials in a structured and version-controlled manner, organizing content libraries for reuse across events and institutional campaigns.

## PROJECTS

### AVONIC – IoT Monitoring Dashboard

Capstone Project

- Designed the real-time monitoring dashboard UI with a clear visual hierarchy, live sensor feeds, and intuitive controls.
- Translated complex IoT data into a structured, easy-to-navigate interface for non-technical end users.

### SPCC Kalookan Inc. – Official Website Redesign

Institutional Project

- Led the UI/UX redesign of an institutional web platform, overhauling information architecture, content layout, and brand consistency to improve communication with students and stakeholders.
